WOODLAND, CAL.
Friday, April 10th, 1874.

VICTORIES IN OHIO.—The telegraph announces that the Democracy have carried Cleveland by a majority of 3,500, and that the result in Cincinnati was "a Democratic sweep."

STAGE ROBBER SENTENCED.—Milton Shephardson was sentenced on the 6th instant, at Shasta, to seven years in the State Prison for highway robbery—robbing Wells, Fargo & Co's Express.

GRAND JURY.—The Grand Jury was in session on Monday and Tuesday last and found seven true bills of indictment, including three against Chemise Joe, one against James Barnes and one against James Hammond.

MECHANICS' INSTITUTE FAIR.—The ninth industrial exhibition of the San Francisco Mechanics' Institute will take place in that city commencing on the 18th of August and continuing thirty days. Exhibitors are invited to prepare their articles and send their applications for space as early as possible to the Agent of the Board of Managers, Mechanics' Institute, 27 Post St., San Francisco, Cal.

SUCCESSFUL STEAM PLOW.—Another trial of the steam plow was made the other day at the Homestead Association grounds, Sacramento. It plows at the rate of one and a half acres an hour, and as several trifling defects are discovered by experiment, there is a growing assurance that the steam plow problem has been solved and that the manufacture of them in the Capital City will become a profitable industry.

SUPERVISORS.—Under the new law the Board of Supervisors will meet on Monday next, and hereafter on the second Monday of each month. The law-makers and Supervisor Merino do not seem to agree. That gentlemen at the first meeting of the new Board was going to have only one meeting in three months was willing (so he said) to give his services to the county without pay. He draws his pay, however, though no one objects to his donating it back to the county if he feels disposed. Probably he will—when he gets a big enough pile to make it an object. Wait and see.

WOOD'S HOUSEHOLD MAGAZINE.—The April number of Wood's Household Magazine, now upon our table, well sustains its reputation as a first class live publication. Its pages are free from trashy, sensational stories, and are full of bright sunny reading that goes home to the heart. The magazine contains its usual number of illustrations, and its general appearance compares favorably with the higher priced magazines. Subscription price one dollar a year; with chromo Yosemitte one dollar and a half. Subscriptions may begin with any number. Address, Wood's Household Magazine, Newburgh, N. Y.

AGASSIZ MEMORIAL FUND.—A movement is on foot among the teachers of the country to honor this great man's memory by placing on a permanent basis the work to which he devoted his life, the "Museum of Comparative Zoology," which is at once a collection of natural objects, rivaling the most celebrated collections of the Old World and a school open to all the teachers of the land. It is proposed that all the teachers and pupils of the whole country take part in this memorial, by contributing something on the birthday of Agassiz, May 28th, 1874. Contributions may be forwarded to the Treasurer, Jas. M. Barnard, Room 4, No. 13 Exchange street, Boston.

THE NARROW GAUGE RAILROAD.—We learn from one who has heretofore been connected with the Benicia Narrow Gauge Railroad project that there is a probability of a reorganization of the Company that will result in putting more energy into it, and consequently greater results may be looked for. We hope this will prove to be true and that the present summer will see the Narrow Gauge brought up the valley at least as far as Woodland. In direct competition alone can the people expect to be relieved from exorbitant charges by the present monopoly. Had Freeman's bill passed, over which there was such a hue and cry, this contemplated legitimate opposition road would have been far less likely to be continued; and to that extent it would have strengthened the monopoly and lessened the chances for getting a people's opposition line.

CONNECTICUT ELECTION.—The election in Connecticut on Monday last resulted in a sweeping Democratic victory. Ingersoll, the Democratic candidate for Governor, has a majority of from fifteen hundred to two thousand. The Senate stands sixteen Democrats to five Radicals, and in the House the Democrats have over forty majority. So the United States Senator to be elected will surely be a Democrat. What does it mean that Connecticut has followed in the wake of New Hampshire and kept in Democratic line? Simply that the people have become tired of and disgusted with Radicalism and Radical management, and have determined to change the order of things and see what Democratic leaders—the true friends of the masses everywhere—can do for them. They are sick and tired of ranting hypocrites. Connecticut has done nobly and increased her Democratic majority.

Letter from Buckeye.

(From our Regular Correspondent.)

BUCKEYE, April 7th, 1874.

EDITOR DEMOCRAT.—Mistaken expectations are often difficult to overcome, but now that the storm is over, it is well that we should endeavor to appreciate the reason the past winter has taught us. The minds of some have been engaged in planning some important work, but in almost every instance the enterprise is unfinished and abandoned entirely until the coming of another season.

OUR FARMING INTEREST.

Three months idleness necessarily contrains us to summer-fallow thousands of acres which would have been sown to grain this season if it could have been got in. With the bountiful rainfall that we have had our farmers seem to understand that the prospects of a fair yield for the next year are excellent; consequently every available team is set to work summer-fallowing for next season.

The weather for the three past weeks has been all that an agricultural people could desire. To our indescribable joy, the largest yield of grain that has ever been produced in the county gleams with promise. I will note a great mistake generally made by the farmers which is never noticed until too late. A sufficient amount of feed for stock—especially hay—is rarely saved to last through the winter, while in almost every field tons of the best winter feed go to waste.

The planting of trees, shrubs and plants has been somewhat neglected, although the season has been favorable; but this is a characteristic with most of our agriculturists, whose chief object is to produce the greatest quantity of grain. It is a mistaken notion, and often unsuccessful in its results.

WOOL PROSPECTS.

While the present prices for wool are by no means flattering, wool growers expect to be able to send to market the best clip of wool that has gone from the county. Owing to the late spring, clipping has scarcely commenced, and as might be expected after a severe winter, sheep commence early to lose their wool, but the staple will be free from burr and exceedingly long.

GRANGERS.

These people seem to grow stronger as they journey onward. To battle with one, comparatively speaking, you would have a thousand braving fists to contend with, while stewpans, broomsticks and teakettles would play a merry tune to your retreating ears. I understand a grand picnic is on the tapis to come off on Cache Creek on or about the first of May and which will be given by the grangers of the county an occurrence which will be looked forward to with interest by outsiders as well as Patrons, for if I understand it will be free to all and must we recollect that this Order never does anything by halves. An ordinary "harvest feast" with them, is not unlike a fashionable dinner.

LOCAL OPTION.

Really the feelings of the people have undergone such a change that moral ideas are strengthening with a large number of our population whose indifference to quantity and preference to quality is freely expressed in almost every circle. We have grown tired and disgusted at the sight of the bloated vagabond who spends his last cent with a class of men who "transact a legitimate business," and then silently sneaks along the public highway begging for a crust of bread that this miserable life might be prolonged a few more days, weeks or months, people are growing tired of these fellows, who depend upon the Lord for a support. I find no remarks disrespectful to the associated class who heap shame and ruin upon these injured representatives of moral depravity, for they certainly feel their conscience reproving their own humiliation. At no distant day we hope to petition to the Supervisors to order an election in our township on the Local Option bill.

ITEMS ROUND ABOUT.

A sunbeam has pierced the cloud that hung around us so long and a Sunday School has been organized in the Baptist Church.

Union Schoolhouse is rebuilt, looking somewhat rusticated.

Private schools are becoming common owing to high prices asked by teachers.

Buckeye Grange with its hundred members joins issue with Dixon and Headburg Granges in relation to the sewing machine agents and the State Fair gambling concern. Our horses have the epizootic.

We have no recollection of any year that promised the yield of grain that this season promises.

SCHOOL EXAMINATION.—The examination of scholars in the Woodland Public School will commence on Wednesday next, continuing through the week and the following week. After the examination, which the public are invited to attend, there will be the usual term vacation.

General Items.

The Sacramento river has risen to 15 feet 2 inches. The American is nearly as high as at any time this winter.

Tax Pledge Mail Steamship Company has decided to build four more iron steamships, to be laid on between New York and San Francisco.

LITTLE has introduced a bill granting to the California Central Narrow Gauge Railroad Company the right of way over the military reservation at Benicia.

Letter from Capay.

(From our Regular Correspondent.)

CAPAY, April 7th, 1874.

EDITOR DEMOCRAT.—Spring has once more broken from the iron grasp of hoary old winter and has burst upon us with budding oaks, blooming orchards and flowers, while I, like the bear of the mountains, have crawled from beneath the folds of my old gray blankets to enjoy the pleasant sunshine and indulge in jostling a few items for the DEMOCRAT.

The winter just past has been the hardest known in Capay Valley. Stock of all kinds have suffered greatly. Cattle, horses and sheep have died in great numbers; sheep, especially, have suffered. The valley, taking the herdsman's counts, numbered 15,000 sheep; while 790 of that number have died; among the heavy losers are J. M. Lowe, 300; Murders Brothers, 129; Edgar & Morris, 50; and a great many others smaller numbers. One of your correspondents placed the number of sheep at 20,000 and only 50 to have died. He would make Capay more of a Paradise than it really is. Our worthy neighbor, Wash. Lambert, our principal stock grower, informs me that he has lost some thirty or forty head of cattle and nearly as many horses, while other smaller stock men have suffered in proportion.

The farmers are busy tending the sides of old mother earth with their plows, hoping she may laugh next year with a bountiful harvest. Early sown and volunteer grain is looking well, while the late sown is of course more backward but also looking well. Such showings as we have had the past three weeks will add greatly to its nourishment.

The Capay ditch Co., owing to the incessant rains, suspended labors last Fall, but I presume they will begin operations again soon, having seen their engineers surveying a few days since near Langville. Their two dams are noble specimens of scientific mechanism, and have stood the surging floods of the winter without breaking a plank or drawing a nail.

The Patrons of Husbandry still continue to meet every Saturday at Langville. Their staid looks betoken success in thwarting the intrigues of the monopolists. I would say to all farmers, become Grangers and you will never go home from your harvest feasts hungry. Yours, OCCIDENT.

"REAL ESTATE" AND "PERSONAL PROPERTY" DEFINED.—Among the amendments to the political code is one defining the meaning of the terms "Real Estate" and "Personal Property," which we publish entire for the information of our readers: The People of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. Section thirty-six hundred and seventeen is hereby amended to read as follows:

Section Thirty-six Hundred and Seventeen. Whenever the terms mentioned in this section are employed in the sense hereafter alluded to, they shall be construed as follows:

First—The term "real estate" includes:

One—The ownership, or claim to, possession of, or right to the possession of, land, and trees, vines, growing crops, and plants while growing and rooted in the ground, except plants and trees grown in nurseries for propagation and sale.

Two—All mines, minerals, and quarries, in and under the land, and all rights and privileges appertaining thereto.

Three—Improvements. Includes all buildings, structures, fixtures, fences, and improvements, erected upon or affixed to the land.

Fourth—The term "personal property" includes everything which is the subject of ownership, not included within the meaning of the term "real estate."

Fourth—The term "full cash value," means the amount at which the property would be appraised, if taken in payment of a just debt, due from a solvent debtor.

SEC. 2. This Act shall take effect on and after its passage.

ELECTION OF SCHOOL TRUSTEES.—The electors of the several School Districts of Yolo County will take notice that by an amendment to the provisions of the Political Code in reference to Public Schools, the annual election for Trustees is fixed for the last Saturday in June. Respectfully,

G. N. FREEMAN,
School Superintendent of Yolo Co.

At the request of Mr. Freeman we submit the following amendments to the Code:

SEC. 1583. An election for School Trustees must be held in each district, on the last Saturday of June of each year, at a district school house, if there is one, and if there is none, at a place to be designated by the Board of Trustees.

SEC. 1588. All State School moneys apportioned by the Superintendent of Public Instruction, must be apportioned to the several counties in proportion to the number of school census children between five and seventeen years of age, as shown by the return of the School Census Marshals for the preceding school year; provided that Indian children who are not living under the guardianship of white persons, and Mongolian children shall not be included in the apportionment list. The School Superintendent of each county must apportion said State and county school moneys as follows:

First—He must ascertain the number of teachers each district is entitled to, by calculating one teacher for every one hundred census children, or fraction thereof of not less than fifteen census children, as shown by the next preceding school census;

Second—He must ascertain the total number of teachers for the county by adding together the number of teachers assigned to the several districts;

Third—Five hundred dollars shall be apportioned to each district for every teacher assigned to it;

Fourth—All school moneys remaining on hand after apportioning five hundred dollars to each district for every teacher assigned to it, must be apportioned to the several districts, having not less than fifty census children, in proportion to the number of census children in such districts.

UNFORTUNATE DIFFICULTY.—Last
Saturday evening several young men
went to a Chinese house in this place,
as they say for the purpose of having
some fun, but the result was something
of a more serious nature. It seems
there were five persons arrested by
night-watchman Huston, assisted by
Under Sheriff Maltby. Their names
were Stockley, Hammond, Sheldon,
Pace and Allen, and all but the latter,
comparative strangers in town, having
come here from Napa. The difficulty
arose, as near as we can ascertain, from
the Chinaman who kept the house
having put Hammond out and struck
him afterwards, when Hammond de-
fended himself with a pocket knife,
cutting the Chinaman rather severely;
but fortunately not endangering his
life. The evidence goes to show that
James Hammond only did the cutting.
All except Hammond and Stock-
ley were released, but these two were
held to bail in \$1,000 each, in default
of which they were kept in jail. Subse-
quently, these two were brought before
the Grand Jury, who found Hammond
guilty of an assault with intent to
do bodily harm, and Stockley was dis-
charged. Hammond's trial will prob-
ably come in the County Court
early next week. This is a very un-
fortunate affair. Hammond is not over
nineteen years of age, and has the name
of being a steady, industrious young
man. We are assured by those who
know him that it is the first difficulty
he ever got into in his life. The
trouble was, he was in bad company,
and in a bad place; and even if he
escapes without severe punishment,
as he ought to if we are correctly in-
formed, it will at any rate learn him
to keep away from such dens in future.

GONE EAST.—Judge W. A. Henry
of this place, late Under Sheriff of Yolo
County, started overland on Tuesday
morning for a short visit to his friends
in St. Louis. Learning that the Judge
was to leave next morning, a few
friends assembled at the elegant resi-
dence of Ex-Sheriff Ballock to bid the
Judge good bye. They were hand-
somely treated, and the Judge was
replied in his well known happy
and appropriate style. All expressed
a wish that he might have a pleasant
trip, a happy visit and a speedy return.
The Judge has been absent from St.
Louis some twenty years and took the
present favorable opportunity, before
engaging in business, to visit his
friends. He intends to return in a
month or six weeks.

"S. N. MERING."—This is the signa-
ture to a long communication in the
Mail in defense of that gentleman's
action as a Supervisor of Yolo County,
and in particular denunciation of us.
Had we the room we have not the fu-
elination to reply to Mr. Mering's ar-
ticle or to refute his false statements
and insinuations. One thing we will
say, however—that we never charged
a cent more than the contract price for
printing done by us or more than was
right. Mr. Mering is called to the facts
that the printing under the present ar-
rangement will cost the county several
hundred dollars more than our bid, and
that the contract was not fairly let-
it was let to his own bid. When we have
time and room, Mr. Mering's course
as a Supervisor will be further venti-
lated.

BOLD HIGHWAY ROBBERY.—On
Monday evening last, as a man called
Ham English was riding in a buggy
with a lady on Main street between
the Tuckey House and the Brewery,
within the town limits, he was stop-
ped by two masked men and his money
demanded. Seeing no other way of
avoiding trouble, he gave them his
purse—not a very heavy one—and was
allowed to pass on.

QUARTERLY MEETING.—The quar-
terly meeting of the Seventh-day
Adventists of Woodland will take
place Saturday and Sunday next,
preaching by Elders Loughborough
and Cartright, this (Friday) evening
at 7 o'clock. Also Saturday at 11 A.M.
and Sunday at 11 A.M. and 7 P.M. The
public are cordially invited.

LARGE SALE.—We call attention to
the extensive auction sale of W. J.
Clarke, advertised to take place at the
Buckeye Ranch, 2 1/2 miles north of
Dunnigan's, on Monday May 11th.

LARGE LUMBER ARRIVAL.—Messrs.
Ruggles & Davis received last week,
per schooner Mary Zephyr, a cargo
of 8000 fence posts and 50,000 feet
redwood lumber.

NEW BUSINESS HOUSE.—F. S. and
J. W. Freeman are about to open a
hardware store in the east end of the
new College Block.

to be had at a bargain. Inquire at this

Matters at East Cottonwood.

EAST COTTONWOOD, APRIL 8.

EDITOR DEMOCRAT: Since my last
letter to you we have been under a
series of excitements which have fur-
nished food for the resident gossips of
our neighborhood. The peace and quiet
of our town has been disturbed by an
attempt on the part of two of our citi-
zens to settle their differences of
opinion with their fists, but a treaty
of peace has at last been agreed upon,
and the threatening cloud of war had
passed away, we hope forever.

Last Tuesday evening Mr. Louis
Andrie entertained his friends by
giving a party at his residence in Cot-
tonwood. Good music was in attend-
ance, and the guests enjoyed them-
selves until a late hour.

But greater than all these, has been
the excitement over the announce-
ment of the capture of the celebrated
"Chemise Joe," of which you gave an
account last week.

Our fields of grain are growing past
all belief; the hills are covered with
"Flora's richest treasures," which
form one vast flower garden—not with
the pale, sickly pines of those reared in
the crowded city or town, but with all
the rich coloring that Nature in her
simplicity gives. I am not versed in
the botanical names of these favorites,
but they are so sweetly blended that
we can sigh no more for

That land, it is to be found,
Where flowers blooming all the year round
Make the spirits of men as light and as free
As summer breeze on the rolling sea.

MORTALIS.

RISES TO EXPLAIN.—We are re-
quested by a number of prominent
members of the Good Templar organ-
ization to state that the Order in Wood-
land is not responsible for the lectures
of Mr. York, or for what he does in the
cause of temperance, and that his lec-
tures here were not under the auspices
of the Order.—Yolo Mail.

No doubt the Good Templars of
Woodland are doing a good work, but
why the necessity of saying that they
are not responsible for the lectures of
Mr. York or anybody else in the cause
of temperance. It would seem to indi-
cate that those prominent members had
the impression that the public believed
that no person could lecture in Wood-
land without their being held respon-
sible, unless that responsibility were
specially denied.

As to the lecture being "conducted
under the auspices of the Order," we
will explain at Turn Verein Hall next
Sunday evening at 7 o'clock.

J. L. YORK.

"SOCIETY OF FREE THOUGHT."—
According to previous notice, the Lib-
eralists of Woodland met at Turn-
Verein Hall last Sunday, and organized
a Society of Free Thought, and a
Progressive Lyceum, for the purpose of
physical, moral, and intellectual cul-
ture, and the promulgation of free
thought in the realms of science, morals
and religion; and to this end the fol-
lowing named persons were chosen to
act as officers of the Society of Free
Thought:

Executive Committee—L. B. Ruggles,
Mary Blowers, R. B. Blowers, J.
Hollingsworth, C. P. Sprague. Con-
ductor of Lyceum—L. B. Ruggles.
Guardian—Mary Blowers. The fol-
lowing named persons were selected as
leaders of groups: C. P. Sprague, Mrs.
J. Harkness, Mrs. C. Jackson, Mrs.
Planteaux, Mrs. C. Sprague, Mrs. O.
Dexter, Mrs. J. G. Hudson. By unani-
mous vote Richard Snyder was elected
Musical Director.

This Society will meet as a Lyceum
each Sunday at 7 o'clock, at Turn-
Verein Hall; also, next Sun-
day evening at 7 o'clock, at J. L. York
will lecture at the same place. Sub-
ject—"Superstition in Religion."

INJUDICIOUSLY CHARACTERISED.—
The editor of the Mail perhaps thinks
he has done a nice thing in this week's
issue, in his reference to the difficulty
in which the Chinaman got hurt, by
vilifying and terming "hoodlum,"
one who has but lately, in an ad-
joining county, occupied positions of
honor and trust that the editor's abili-
ty and character would render him in-
competent to fill. All these young
men bore a good character in Napa.

PLEASANT.—The weather is deli-
cious, crops are growing finely, trees and
flowers in bloom and everything in
nature looking beautiful. What a
pleasant, beautiful land we live in.
Are we sufficiently thankful for all
this?

PASTURAGE.—Those desiring pasture
for stock can be accommodated on
reasonable terms by applying to W.
T. HUNT.

In Memoriam.

ings of Divine Providence our well loved
Brother E. NEULAN has been removed from
our midst; and whereas we cherish with af-
fection the memory of his many virtues as worthy
of emulation, therefore be it

be communicated to the mother and relatives
of the deceased, with the tendering of our
deep and heartfelt sympathy.

spread upon the Minutes of our Lodge; a copy
of the same be forwarded to the nearest relatives,
to each of the county papers, and to the
Weekly Rescue for publication.

lutions.

New Copy Holder.—Mr. Basil

Lawson, of this place, has shown us a
model of a new invention of his, which
he is about to forward to Washington
with an application for a patent. It is a
copy-holder—very small, light, com-
pact and efficient, having been thor-
oughly tested in our County Recorder's
office and proved entirely successful. It
is constructed with rollers and springs
and is the most suitable copy-holder for
the use of Recorders and other copyists
we have ever seen. For printers it is
just the thing, exactly, and it will not
surprise us if the inventor finds an ex-
tensive and ready sale for it.

SINGING SCHOOL.—Mr. Phillips has
secured Central Hall for his singing
school, where it will be held hereafter
on Monday and Saturday nights.

VETERINARY SURGEONS all over the country
are recommending "Sheridan's Cavalry Con-
dition Powder" for the following troubles in
horses: Loss of appetite, loughing up of the
hair, stoppage of bowels or water, thick water,
cough and cold, swelling of the glands,
worms, horse all thick with mud and heaves.

A FRIEND of ours who is chief clerk in the
Government Dispensary, says that no medi-
cine chest is now complete without Johnson's
Anodyne Liniment. We always supposed
it was prescribed by law; if it is not, it ought
to be, for certainly there is nothing in the
whole materia medica of so much importance
to the soldier as the anodyne of "Johnson's
Anodyne Liniment."

A GOOD MEDICINE. Davis' Pain-Killer
for men is a reputation, unsurpassed in
the history of medical preparations—it is
instantaneous effect in the eradication of pain,
and the removal of all morbid conditions of the
body, which the vegetable kingdom affords;
it is a remedy for all the ailments of the
human system, and is the only preparation
that meets the emergency. The effect of this
remedy is instantaneous. It invigorates the
system, invigorates the vital energies and the
brain, and its prolonged use will unquestion-
ably cure any case of debility, hypochondria,
or mental torpor that does not arise from
organic causes beyond the reach of medicine.
It is the strictest sense of the word, an in-
vigorating and refreshing tonic, and con-
stantly invigorates the system, and con-
stantly invigorates the system, and con-
stantly invigorates the system, and con-

The flashes of excitement produced by
the stimulants in ordinary use, are followed by
a reaction that is always more or less injurious.
Just as the darkness, illumined for a mo-
ment by the lightning's glare, is again shrouded
in deeper blackness than ever after the flash is over,
so the mental and physical debility that
vanish temporarily under the influence
of a dram return with tenfold intensity when
the first transient effect ceases. Yet phy-
sicians habitually prescribe the liquors of com-
merce for patients suffering from bodily weak-
ness and mental debility. The remedy
indicated with the finest taste and altera-
tives which the vegetable kingdom affords;
it is a remedy for all the ailments of the
human system, and is the only preparation
that meets the emergency. The effect of this

KIND WORDS.

The Associated Reformed Presbyterian says:
For years Perry Davis' Pain-Killer has been
known as a most useful family medicine. For
many years it has been known as the "Pain-
Killer." For many years it has been known
as the "Pain-Killer." For many years it has
been known as the "Pain-Killer." For many
years it has been known as the "Pain-Killer."
It is equally good. We speak from experience,
and testify to what we know. No family ought
to be without a bottle of Davis' Pain-Killer.

Messrs. PERRY DAVIS & SON, Prop. R. L.
Gents.—Although a stranger to you I am
not to your invaluable Pain-Killer. I have
known its efficacy in 1871 and I am con-
vinced that it is the best remedy for all
the ailments of the human system, and is the
only preparation that meets the emergency.
It is equally good. We speak from experience,
and testify to what we know. No family ought
to be without a bottle of Davis' Pain-Killer.

J. J. GARDINER, M.D.

Judging by our own experience, whoever
owns a bottle of Perry Davis' Pain-Killer,
will not fail to recommend it to all who
are afflicted with any of the ailments of the
human system, and is the only preparation
that meets the emergency. It is equally good.
We speak from experience, and testify to
what we know. No family ought to be with-
out a bottle of Davis' Pain-Killer.

The efficacy of Perry Davis' world-renowned
PAIN-KILLER in all diseases of the bowels,
even in that terrible scourge, the Asiatic
cholera, has been amply attested by the most
convincing authority. Missionaries in China
and India have written home in extenuation
of this remedy in terms that should carry
conviction to the most sceptical, while its
popularity in communities scattered home
in ample proof that the virtues claimed for it
are real and tangible. Among family medicine it
stands unrivaled.—Boston Courier.

The Saturday Evening Gazette, of Boston,
says: It is impossible to find a place on this
world where Perry Davis' Pain-Killer is not
known as a most valuable remedy for all
the ailments of the human system, and is the
only preparation that meets the emergency.
It is equally good. We speak from experience,
and testify to what we know. No family ought
to be without a bottle of Davis' Pain-Killer.

"PERRY DAVIS' PAIN-KILLER" is really a
valuable medicine, and unlike most of the
articles of the day is not only a remedy for all
the ailments of the human system, and is the
only preparation that meets the emergency.
It is equally good. We speak from experience,
and testify to what we know. No family ought
to be without a bottle of Davis' Pain-Killer.

"We have tested the PAIN-KILLER, and as-
surured readers that it is not only a remedy for
the ailments of the human system, and is the
only preparation that meets the emergency.
It is equally good. We speak from experience,
and testify to what we know. No family ought
to be without a bottle of Davis' Pain-Killer."

The Beaver.
BY MARY HOWITT.

Far in the north if thou sail with me,
A wonderful creature I'll show to thee,
A gentle and mild as a lamb at play,
Skipping about in the month of May;
Yet with a turn of a head and a tail,
Who sits turning over a musy page!

Come down to this lonely river bank,
See, driven in stakes and riven plank;
A mighty work before thee stands,
That would do no shame to human hands,
A well-built dam to stem the tide
Against the peril of storm and flood.

Look! the woven bough of many a tree,
And a wall of fairest masonry;
The waters cannot overflow this bound,
For a hundred keen eyes watch it round;
And the skill that raised it keeps it good
Against the peril of storm and flood.

And yonder the peacable creatures dwell
Secure in their watery citadel;
They know no sorrow, have done no sin;
Happy they live 'mongst kith and kin—
As happy as living things can be,
Each in the midst of his family.

And there they live, and the hunter wild
Seeking his noble nature mild,
Seeing how they are kind and good,
Hath felt his stubborn soul subdued;
And the very sight of the young array
Hath put his hunter's heart away.

And a mood of pity hath o'er him crept,
And he thought of his own dear babes and wept.

I know ye are but the beaver small,
Living at peace in your own mud wall;
I know that ye have no reason to teach
The lore that lies within your reach,
But what? Five thousand years ago
Ye knew as much as now we know.

For on the banks of streams that spring
Ere knew as much as now we know.
Your wondrous works were formed as true:
For the All-Wise instructed you;
But man! how hath he pondered on
Through the long term of ages gone;
And many a cunning book hath writ,
Of learning deep and subtle wit.

Hath composed sea, hath compassed land,
Hath built up towers and temples grand,
Hath traveled far for hidden lore,
And learned what was not known of yore.
Yet after all, though wise he be,
He hath no better skill than ye!

The "Dolly Varden Crew" are endeavoring to make it appear that they are not responsible for the defeat of railroad legislation. But it must be remembered that every move made for delay in the Senate was by Edgerton, the head and front of "Dolly Vardism."

Y. Having thus done, the lady walked out as quietly as she came in.

GIVING AWAY LAND IN GEORGIA. Another plantation of Messrs. Hughes & Vickers was sold, or rather given away, on last Friday. It was located in Houston county, known as the Oak-land place, containing 2130 acres of oak and hickory land, and was on that day knocked down by the receiver, Milo S. Freeman, to Hardin T. Johnson, of this city, for \$2,125—not quite \$1 per acre. Five head of mules, twenty-three head of cattle, eight hundred bushels of corn, four thousand pounds of feed, wagons, plows, gear, carts, and a miscellaneous lot of other farming implements were sold at the same time. The gross sum realized upon the entire sale, land and all, was \$3,800. The place was sold to Judge J. J. Gresham before the war, by Charles and Stephen Collins, for just \$25,000, and by Judge Gresham four years ago to Hughes & Vickers for \$12,000 for the land, \$4,000 for the stock, etc., on it.—*Augusta, Ga. Challenge
THE WORLD
DR. HENLEY'S
CELEBRATED
LIXL-BITTERS
BEST TONIC IN USE.

These Bitters do not only distinguish themselves by their flavor and aromatic odor above all others generally used, but are at the same time an excellent tonic and a delicious stimulant to excite the appetite. They are prepared from the most choice and wholesome herbs and roots, and have given universal satisfaction wherever tried. Thousands of dyspeptics have found relief through their use, and physicians recommend them for the CURE OF ALL DISEASES OF THE BLOOD AND LIVER, and irregularities of the digestive organs.

Headache, Biliousness and Constipation, General Debility and loss of appetite, are all caused by the derangement of the Stomach, Liver, and other functions of the system. The LIXL-BITTERS have been successfully used and are warranted to alleviate the sufferer in all the above cases.

The LIXL-BITTERS are sold only in "glass" to sell other than the genuine article out of our bottles is felony, and we will when detected, prosecute such parties to the full extent of the law.

Read Physician's Certificate on each bottle.
Every family should have them in the house. Sold every where.
